

## **Home Study Program: \$135**

This is the most economical program for parents who are willing to do both the classroom & driving portion of the program.

### **Packet Contents:**

- ? Instruction page
- ? DR 2460 (Colorado Only)
- ? Work book (90 plus pages)
- ? Behind the wheel training manual
- ? Theme poems (How to die in 0.7 seconds, Moonlight Ride, and Dead at Seventeen)
- ? Answer key
- ? Copy of the traditional course curriculum
- ? Safety Belts - Why Don't We Use Them?
- ? Drive time log sheet
- ? Certificate of Completion For the Workbook (To be signed by parents/guardian and mailed to us)
- ? Self Addressed Envelope

**Student Training Procedures:** Using our workbook & supplemental text manual, parents monitor their student's educational progress, correcting each unit with the answer key. Once completed, the parents will take their student to the Department of Motor Vehicle (DMV/MVD) for a written test to obtain the instruction permit or they may test in one of our offices if we have an office in our area. *Be sure to take the student's birth certificate/social security card and/or passport when going to the DMV/MVD.*

Now the fun begins! Parents will use our Behind the Wheel manual as a guide for their student's driving lessons. You must do a minimum of 6 hours of driving with your student before sending in the Completion Statement in order to receive the Insurance discount certificate.

**To Complete:** The only thing we need from you at this point is the Completion Statement form, signed and dated, giving us the students name, address, city, and zip. Please put it in the self-addressed stamped envelope we have provided and drop it in the mail. When we receive your form, we will promptly send you the official completion statement.

## **Home Study Program plus six (6) hours driving with our instructor.**

*(The price is the same as our traditional course program in your city).*

This is the best choice for parents who would like one of our professional instructors to do the driving portion of the program and then the driver license testing in one of our dual controlled cars.

Now the fun begins! The 6 hours of behind the wheel will be done in one of our dual controlled cars with our state approved/licensed instructor. Call your student's driving instructor, whose name and phone number is included on the instruction page, and they will set up driving times with your student. We pick the student up from your home and we let them drive themselves back home when finished. When your student has completed the 6 hours of behind the wheel training, our driving instructor will sign the blue Certificate of Completion form. *Keep this as proof for your insurance company discount if your insurance company gives discounts for drivers education.*

**To Complete:** When your student is eligible for their driver's license test, give your instructor another call to schedule the driving test. The instructor will issue the appropriate paperwork to take to the Department of Motor Vehicle (DMV/MVD). They will then issue the license after paying the DMV/MVD processing fee.
